(https://gene-tools.com/custom_morpholinos_controls_endmodifications)

Sequences over 25 bases should contact Gene Tools customer support at

<mailto:custsupport@gene-tools.com>

Holdback Oligos: Holdback oligos are the excess synthetic yield of your custom oligos. These holdbacks may be available for purchase at a discount of 25% off the current replacement price per nmol and require the purchase of the entire quantity. These oligos can also be purchased by collaborators if approved by the original customer.

Availability of holdbacks is not guaranteed.
